

1st International Congress of Hydroclimatology

First Call

Cochabamba – Bolivia
South America

August, 24 to 28 of 2009

ORGANIZED BY:

Servicio Nacional de Meteorología e Hidrología
Universidad Mayor de San Simón
Universidad del Valle
Universidad Católica Boliviana San Pablo

GENERAL COORDINATOR:

Lic. Marithza Del Castillo Antezana
Postgraduate studies FCyT - UMSS

PRESIDENT SCIENTIFIC COMMITTEE:

Ing. Miguel A. Ontiveros M. PhD.
SENAMHI coordinator

PRESIDENT ORGANIZING COMMITTEE:

MSc. Lic. Juan Ríos del Prado
UMSS Rector

LOCATION:

The Event will develop in the Cultural Center Simón I. Patiño, street Fortune between (among) street Buenos Aires and avenue Portals, Cochabamba.

PRESEDENTS:

The water is an essential element for the human activity, therefore policies must be implemented for a correct management of this resource, based in a solid scientific research.

The planning for the utilization of the water resources worldwide, demands a deep understanding of the factors that affect and modulate the climate, besides the evolution in the time and space.

In this context, the climatic change describes a line of important research for the planning of strategies and development of tools for the study of the interrelationship between the macro climatic processes and regional behaviors.

Faced to these challenges, the Scientific and Organizing Committee, promotes the "1ST INTERNATIONAL CONGRESS OF HYDROCLIMATOLOGY", in order to stimulate the exchange of experiences and results of researches of high scientific value in this area, which answers to the demand of our societies in the academic and scientific environment.

OBJETIVES

- Provide to the participants a balanced perspective on the relation between the water resources, the climate and the technician – scientific tools.
- Give to the participants the opportunity to think with a new vision about the different ways to faced and resolv the current questions related to this area.
- Provide to the participants an analytical frame that allows them to examine the diverse dimensions of the water resources and the climate in an international context.
- To offer to the participants information about the tools and available methods, related to the planning, evaluation, and management of the water resources and the climate in the world.

THEMATIC LINES:

- Hydrology
- Hydraulics
- Climatology
- Hydrogeology
- Nivology and Glaciology
- Education in water resources and climate
- Management of water resources
- Climate Change
- Environmental Management
- The social aspects the management of water resources

LANGUAGE:

Congress will used as official language English and Spanish, these languages are written in all official documents of the event.

PROVISIONAL SCHEDULE

Monday, 24 August 2009

Morning: Arrival and registration to the event
Afternoon: Session presentation and exhibition panels.
Evening: Opening Reception

Tuesday, 25 August 2009

Morning: Session presentations and panel presentation
Afternoon: Session presentations and panel presentation

Wednesday, August 26, 2009

Morning: Session presentations and panel presentation
Afternoon: Field Trip
Evening: Dinner and artistic show

Thursday, August 27, 2009

Morning: Session presentations and panel presentation
Afternoon: Session presentations and panel presentation.

Friday, August 28, 2009

Morning: Approval of Cochabamba

EXCURSION:

An excursion will be realized (according to the tentative chronogram) to the prey of the Angostura, in this place we will show the activities realized since 1947, date in which this construction its working, being a historical patrimony for the region.

COSTS:

The costs of participation in the Event, will be published in the Information Circular No. 2.

CALL FOR RESEARCH WORKS:

All the members are invited to present a work of scientific research, expressed in an abstract in Word format (Times New Roman 12pt, single-spaced, 400 words) including title, author (s) name (s) until February 10 of 2009, according to schedule.

The list of the accepted works will be published until February 24, 2009, previous review of the committee.

All the works that are accepted should submit a final summary in Word format (Times New Roman 12pt., Single-spaced, 2000 words) until 10 March 2009, according to the summary the committee define which one will be presented as the scientific work will be presented as a Presentation in the Congress or as a panel format, the participants will be notified until April 13, 2009.

The final summaries will have to be sent in digital format to the authorized e-mails.

PRE-REGISTRATION:

The number of exhibitors and speakers are limited to 50, why are requested to submit their interest in scientific work to express their interest through a pre-registration by sending an e-mail to congreso@senamhi.gov.bo

SCHEDULE:

Call:	05.01.2009
Postulation (Abstractions Presentation):	10.02.2009
Notification of Acceptance::	24.02.2009
Submission of Papers:	10.03.2009
Notice of Final Acceptance:	13.04.2009
Date of Conference:	24 – 28.08. 2009

CONTACTS:

San Simon Major University
Faculty of Science and Technology
Address Graduate
Campus (Sucre Square)
